COFFEE ROASTER

Seattle's authentic
coffee experience

WELCOME TO A LUXURY COFFEE EXPERIENCE

Fonté Coffee Roaster was established in 1992 by Paul Odom, then 21 years of age, with the intention to offer the world's finest coffees roasted in the authentic Seattle style. Paul met Steve Smith, Fonté's Master Roaster, who now has been roasting for nearly 40 years. Smith's wealth of coffee knowledge and Paul's drive to create a successful business was a perfect match. Now, Fonté shares top-quality coffee with restaurants, businesses and five-star properties nationwide and online at fontecoffee.com.

The unmistakable flavor and complex character you'll find in every pound of Fonté Coffee are the result of hours of meticulous craftsmanship and care. We **hand roast** our beans in smaller, artisan batches to deliver the fullest flavor profile and expression. Our **roast to order** program ensures coffee is delivered as fresh as possible. It's simple; you order, and we ship your coffee within 24 hours of roasting for guaranteed quality. Our coffees complete the definition of hospitality by making high-quality craft coffee commercially viable. With Fonté, guests' coffee experience matches the hospitable luxury of your business.
